

SHERQ Policy

It is the primary and continuing policy of **Landscapers INC** that in the conduct of its activities it will endeavour to protect the health and safety of its employees, customers, contractors and others who may be affected by these activities and endeavour to limit adverse effects on the physical environment in which these activities are carried out, while maintaining the highest level of quality service throughout.

Landscapers INC Management is committed to the following:

- Develop business procedures and comply with standards which meet the relevant statutory requirements for health, safety, and environmental matters;
- Design business processes to ensure consistency and clear accountability;
- Plan and execute haulage/logistics activities to ensure that contractually agreed requirements are met;
- Continually review and where appropriate improve these procedures in the light of changes in technology, industry trends and practices and changes in legislation;
- The establishment of objectives at relevant functions and levels of the company; plan, measure and review these objectives in providing the framework for performance improvement and customer satisfaction;
- Co-operate with the relevant authorities and technical organisations on concerning meeting the prescribed minimum legal and other requirements;
- Ensure the responsible utilisation of natural resources, prevention of pollution and environmental harm as well as commitment to prevention of injuries; ill health; and customer dissatisfaction;
- Ensure that the potential health and safety factors and environmental impacts are assessed for all new products, services, projects, activities and acquisitions. Such assessments will be documented and will form part of the submission incorporating the new activity;
- Ensure that all employees are properly informed of their responsibilities and authorities, that they fulfil them effectively and are prepared to react according to internal procedures;
- Ensure that the mechanisms are established and are used for consultation with employees, contractors and visitors on matters affecting quality, health, safety and environmental impacts at work;
- Ensure availability of adequate resources for commitment in following a program of continual improvement throughout the organization.

The SHERQ policy will be periodically reviewed to ensure continued relevance and adequacy. The SHERQ Policy shall be made available to all stakeholders on request and be prominently displayed within the organization. The SHERQ Management System will form an integral part of the company's core business processes. The responsibility of management and all employees to implement this policy effectively ranks equally with their respective responsibilities for services, maintenance, quality, sales, costs, profitability, and similar matters of vital importance to the success of the company.
