

## Environmental Policy

### PURPOSE

The purpose of this policy is to establish our environmental objectives.

### SCOPE

This policy applies to all Landscapers INC operations both on-site and off-site undertakings, covering transport and logistics.

### POLICY STATEMENT

Landscapers INC understands the importance of managing risk related to environmental standards and is committed to maintain Management Systems and preventative controls in an effort to minimise exposure to anything, which may harm the environment.

By this means, Landscapers INC undertakes to: -

- Identify customer needs and provide a quality service that will satisfy these needs and adopt a responsibility of caring for the environment in all its activities and operations.
- Promote the principle of sustainable development in the conduct of our operations and strive for continuous improvement in Health Safety & Environmental performance.
- Conduct our operations in a manner that minimises adverse environmental impacts and protects the health & safety of our employees and the public.
- Endeavour at all times to work within legal requirements of the National Environmental Management Act (Act 107 of 1998), and other relevant legal regulations and compliance with relevant environmental legislation and regulations directly applicable to the environmental aspects of our activities through all levels of local authorities and governmental organisations.
- Adopt total Quality and Environmental management as a way of life and instil this as a culture within the Company through ongoing training, awareness programmes and a Quality Management System.
- Work with suppliers to ensure that they assist us in meeting our quality standards and sharing environmental experiences.
- Use the Quality and Environmental Management System to drive down costs by streamlining processes & reducing wastage, thereby improving profitability and commitment to recovery and recycling as opposed to disposal where feasible.
- Encourage, and assist where feasible, Contractors to comply with its ISO and SHERQ requirements and safeguard the reputation of Landscapers INC, especially regarding environmental concerns and issues.
- Evaluate and review all operational activities to ensure that the environmental-related requirements of ISO and SHERQ systems are met and complied with.

Measure our Carbon Footprint & implement new ways to reduce this as much as possible.

### RESPONSIBILITIES

#### Compliance, monitoring and review

Landscapers INC shall establish and define:

- (a) Roles, responsibilities and authority in order to facilitate effective environmental management.
- (b) Resources essential to the implementation and control of the environmental system, and provide them.
- (c) Resources to include human, specialised skills, technological and financial and shall include defined roles and authorities for ensuring all the environmental management systems are established and implemented, and to provide reports of compliance.
- (d) That the Managing Director ensures that the company's environmental policy and procedures are fully documented, complied with and kept under review to meet with current requirements and legislation.
