

Sustainability and Energy Efficiency Policy and Procedure

PURPOSE

This policy provides a framework for all Landscapers INC current and future sustainability activities.

SCOPE

This policy applies to all divisions, businesses, and staff (both permanent and contract), and to management and brand operations, where Landscapers INC is the controlling shareholder. Sustainability is a central function, which coordinates all sustainability activities in the divisions via the designated divisional champions and sustainability steering committee members.

POLICY STATEMENT

Sustainability is an approach to business that places value creation in a long-term context.

Implicit in this statement is the creation of shared value. This implies that economic value is created for the business whilst simultaneously creating value for society, which enables the needs and challenges of society to be addressed. Business success should be linked to socio-economic development and low environmental impact. Sustainability is an approach to business that takes all three elements, economic, social and environmental value, into account. Landscapers INC is fully committed to good sustainability principles. We strive to be financially sound, socially responsible as well as environmentally friendly, with good corporate governance as the overarching principle.

Principles

Governance

- Sustainability is an integral part of how Landscapers INC does business, and these principles are a core management principle;
- Landscapers INC will comply with all relevant legislation and approved codes of good practice locally, nationally, and internationally;
- Landscapers INC will communicate and report on progress, both internally and externally, principally, but not exclusively, by means of the annual integrated report;
- Landscapers INC will utilise all suitable opportunities to influence our partners, suppliers, and contractors to improve their own sustainability performance;
- Landscapers INC will constantly seek to improve environmental, governance, societal and economic performance on an ongoing basis;
- Landscapers INC will participate in discussions about sustainable development matters; and
- Landscapers INC will consider and implement initiatives to manage new and changing sustainability issues such as climate change, supply chain management, bribery and corruption, human rights, and crime.

Social

- Landscapers INC will operate in a socially and ethically responsible manner;
- Landscapers INC will raise awareness amongst its staff of our sustainability objectives;
- Landscapers INC will encourage staff participation in sustainable development issues;

Environmental

- Landscapers INC will minimise the consumption of energy and water resources and reduce waste production.
- Landscapers INC will endeavour to reduce its carbon emissions in line with national target.

RESPONSIBILITIES

Compliance, monitoring, and review

The CEO will approve all policies and strategies regarding sustainability;

The Management Representative will report to the CEO on sustainability

Escalation of non-sustainable matters identified

All non-sustainable practices that are identified will be escalated to the executive risk committee for consideration.

Records management

Management must maintain all records relevant to administering this policy.

RELATED LEGISLATION AND DOCUMENTS

Occupational Health & Safety Act (85 OF 1993)

National Environmental Management Act 107 Of 1998 (NEMA)

FEEDBACK

The Sustainability policy will be periodically reviewed to ensure continued relevance and adequacy. The Sustainability Policy shall be made available to all stakeholders on request. The SHERQ Management System will form an integral part of the company's core business processes. The responsibility of management and all employees to implement this policy effectively ranks equally with their respective responsibilities for services, maintenance, quality, sales, costs, profitability, and similar matters of vital importance to the success of the company.
