

RESPONSIBILITIES

POSITION TITLE	ROLE	DESCRIPTION OF TASK
Safety Team	Develop and amend this document	Review and amend this document
Landscapers INC employees and contractors	Adherence	All employees and contractors engaged in work shall adhere to the guidelines in this procedure
Human Resources	Monitoring	Monitor and report on employee excessive hours
Departmental managers	Ensure compliance	Ensure compliance to procedure requirements

General

1. All tools, regardless of ownership, shall be of an approved type and maintained in good Condition. (Tools are subject to inspection at any time. A supervisor has the authority and responsibility to condemn unsafe tools, regardless of ownership).
2. Unsafe tools shall be tagged with an unsafe tag to prevent their use.
3. Employees shall always use the proper tool for the job to be performed. Makeshift and substitute tools shall not be used.
4. Hammers with metal handles, screwdrivers with metal continuing through the handle, and metallic measuring tapes shall not be used on or near energized electrical circuit or equipment.
5. Tools shall not be thrown from place to place or from person to person; tools that must be raised or lowered from one elevation to another shall be placed in tool buckets or rigidly attached to hand lines.
6. Tools shall never be placed unsecured on elevated places.
7. Rotating tools such as brush cutter, chainsaws and hedge trimmers that become stuck or broken will be repaired, or replaced before further use.
8. Tools shall be used only for the purposes for which they have been approved.
9. Tools with sharp edges shall be stored and handled so that they will not cause injury or damage. They shall not be carried in pockets unless suitable protectors are in use to protect the edge.

10. Wooden handles that are loose, cracked, or splintered shall be replaced. The handle shall not be taped or lashed with wire.
11. Tools shall not be left lying around where they may cause a person to trip or stumble.
12. When working on or above open grating, a canvas or other suitable covering shall be used to cover the grating to prevent tools or parts from dropping to a lower level where others are present, or the danger area shall be barricaded or guarded.

Portable Electric Tools

1. All powered tools shall be examined prior to use to insure general serviceability and the presence of all applicable safety devices.
2. Powered tools shall be used only within their design and shall be operated in accordance with the instructions of the manufacturer.
3. All tools shall be kept in good repair and shall be disconnected from the power source while Repairs or adjustments are being made.
4. Electrical tools shall not be used where there is hazard of flammable vapours, gases, or dusts.
