

LANDSCAPERS INC
TOOLBOX TALK – LANDSCAPING SAFETY

Topic: General Landscaping Safety

Date: 13/01/2026

Site: CARRON GLEN / MT EDGEcombe

Supervisor: A.S. GURUVADU

Objective

To ensure all employees understand the hazards associated with landscaping work and the safety measures required to prevent injuries, property damage, and environmental incidents.

Daily Safety Checklist

Before commencing work:

- Conduct a site inspection.
- Identify potential hazards.
- Wear the required Personal Protective Equipment (PPE).
- Ensure all equipment has been inspected.
- Confirm emergency contact numbers and first aid arrangements.
- Review the day's work plan with all team members.

Mandatory PPE

All employees must wear:

- Safety boots
- High-visibility vest or shirt
- Safety gloves
- Safety glasses or goggles
- Hearing protection when operating noisy equipment
- Long trousers
- Sun hat or hard hat where required

Common Landscaping Hazards

- Slips, trips and falls
- Uneven ground
- Hidden holes and obstacles
- Flying debris from machinery
- Manual handling injuries
- Sharp tools
- Chemical exposure from herbicides or pesticides
- Heat stress and dehydration
- Moving vehicles and machinery
- Electrical hazards from underground or overhead services

Safe Work Practices

Lawn Mowers

- Inspect equipment before use.
- Remove stones, branches and debris before mowing.
- Never remove safety guards.
- Keep hands and feet away from moving blades.
- Switch off the engine before clearing blockages.
- Do not mow steep slopes where footing is unsafe.

Brush Cutters and Trimmers

- Wear eye, face and hearing protection.
- Maintain a safe distance from other workers.
- Inspect cutting heads before use.
- Keep both hands on the machine during operation.

Hedge Trimmers

- Check blades for damage.
- Ensure guards are fitted.
- Maintain stable footing.
- Keep the power cord clear when using electric equipment.

Chainsaws (Authorised Operators Only)

- Only trained personnel may operate chainsaws.
- Wear full chainsaw PPE.

- Maintain a safe exclusion zone.
- Never cut above shoulder height.
- Follow approved tree-felling procedures.

Manual Handling

When lifting:

- Bend your knees.
- Keep your back straight.
- Lift with your legs.
- Keep loads close to your body.
- Ask for assistance with heavy or awkward loads.
- Use wheelbarrows or mechanical aids whenever possible.

Chemical Safety

- Read product labels before use.
- Wear appropriate PPE.
- Mix chemicals only as instructed.
- Avoid spraying during windy conditions.
- Wash hands thoroughly after handling chemicals.
- Store chemicals securely.
- SDS

Heat Stress Prevention

- Drink water regularly.
- Take scheduled rest breaks.
- Wear appropriate sun protection.
- Report dizziness, nausea or excessive fatigue immediately.

Environmental Protection

- Prevent chemicals entering stormwater drains.
- Dispose of green waste responsibly.
- Protect existing plants not included in the work scope.
- Minimise dust and excessive noise where possible.

Emergency Procedures

In the event of an emergency:

1. Stop work immediately.
2. Make the area safe.
3. Notify the supervisor.
4. Contact emergency services if required.
5. Administer first aid if trained.
6. Report all incidents, injuries and near misses.

Safety Reminder

Everyone has the authority and responsibility to stop unsafe work.

If you see something unsafe:

- Stop.
- Report it.
- Correct it before continuing.
